If you are like me, you save your DEMS Bulletins and consult them with reasonable frequency. I often have trouble remembering when something was published in DEMS, thus I thought to make this Table of Contents for the DEMS Bulletins (with Sjef Hoefsmit's permission, of course).

The items below are listed in the order that they were published in DEMS. Issues are arranged in reverse chronological order. Each item consists of the DEMS issue and the title and page number of each article. You can search the article titles using the search function on your internet browser, which in Netscape is Ctrl + F (both keys at the same time).

Thus, if you remember reading about a good place to buy discographies somewhere in a DEMS Bulletin, hit Ctrl + F, type discog into the search window (you don't have to type the whole word) and hit enter. You will be taken to the following entry:

[2001/3 DEMS 4 : Discographies available from Arthur Newman](#)

Here you learn that Arthur Newman is the man and that the information you seek is in the 2001 DEMS Bulletin, issue number 3, on page 4.

Admittedly you can only find entries if you remember a word from the title of the DEMS article, but I still found this useful. I began with the most current DEMS Bulletin and am working backwards.

If you wish to subscribe to this wonderful publication, write to:
