I am interested in the plans now being hatched to promote Raoul Walsh productions. Raoul, who has directed many of the most successful box office pictures, will have his own company if the deal now being promoted by Major John Zandt and Watterson Rothacker materializes. Eppi, we are told, in all likelihood will enter into this combination, which means there will be plenty of money back of the new motion picture company. More than likely either Fox or Metro-Goldwyn-Mayer will release the Walsh pictures.

That demon with the women, Jackie Coogan, has been on the Metro-Goldwyn Mayer lot off and on all week. Two reasons for his trip to the Culver City studios. The first is the test he made for "Tommy Traddles" in "David Copperfield" and the second reason is pretty blond Louise Henry of New York. Jackie goes in for blonds always and he is now dividing his attentions between Toby Wing and Miss Henry. He is giving the latter young woman, who is under contract to Metro-Goldwyn-Mayer, a big rush. The grownup Jackie is an attractive lad and a great favorite with the girls.
