MARKET REPORTS ✣ STOCKS

UPWARD MOVE IS RESUMED TODAY IN WALL STREET

EARLY REALIZING IS QUICKLY OVERCOME; BULLISH ACTIVITY GROWING

New York, June 22.—(AP)—The stock market continued to push forward in today's brief session and many new highs for the year were recorded. Week-end realizing in the first hour was overcome with little difficulty and bullish activity broadened later. The close was firm. Transfers approximated 800,000 shares.

Optimism apparently ruled in the boardrooms and profit-taking was not urgent at any time. Strength was displayed by a few specialties, but the general gains ranged from fractions to around a point. Washington developments, on the whole, did not seem to disturb sentiment.

Grains were unsympathetic, the major cereals sagging on improved crop weather reports. Cotton was steady. Foreign exchanges were narrow. Secondary bonds advanced.

Shares of Air Reduction and American Can got up more than 2 points each and American Tobacco nearly as much. Other advances were registered by Du Pont, Safeway Stores, Montgomery Ward, Chrysler, General Motors, Philip Morris, Johns-Manville, Standard Oil of New Jersey, Kennecott, American Smelting, International Telephone, American Telephone, Consolidated Gas, North American, Bethlehem Steel and Electric Auto-Lite. Most of the rails and oils were unchanged to slightly improved.

GRAIN

Chicago, June 22.—(AP)—Decided downturns of grain prices early today showed reports of clearing weather in domestic wheat harvest territory southwest. Better weather for corn crop prospects had an additional bearish effect. Opening ⅛ to ¾ cent off, Sept. 81 to 81¼, wheat soon dropped further. Corn started ⅛ to ¼ cent down, September 75⅝, and continued to recede.

Bearish sentiment as to wheat was increased by estimates received that yields of domestic bread grain crops northwest this season would be double those of a year ago. After about 1¼ cent a bushel setback of prices, however, some support for the wheat market developed from resting orders to buy, and moderate rallies ensued. On the other hand, bulls were handicapped by forecasts of general fair conditions for all states tonight and Sunday, with rising temperatures, an outlook favorable for grain crops at this time.

Commission houses readily absorbed offerings of corn on price dips. Both corn and oats displayed more resistance to market downturns than wheat did. What selling of corn there was came for the most part from pit traders, who charged their tactics with promptness when the wheat market showed relatively steadier action.

Provisions eased with grains, despite hogs having hardly half as much as last year.

LIVE STOCK

Chicago, June 22.—Cattle—Receipts, 800; calves 100, compared Friday last week, fed steers and yearlings ole ed more active but weak against a semi-demoralized market late last Friday, but values 25 to 50 cents under week ago Wednesday; all grades showing decline and unsettled; 50 to 100 under two weeks ago better grade medium weight and heavy steers showing most decline; stockers and feeders 50 to 1.5 under at one high time; [illegible] reported at 12.50; practically [illegible] heifers 11.50; [illegible] above 11.00; best yearlings heifers in load lots 10.25, few choice packages 10.75; all heifers closed 25 cents or more down. Dry-fed common and medium grades holding up best. Cows, 25 to 50 cents lower, better grade beef cows off most; bulls steady and vealers 1.00 higher.

Sheep—Receipts 4,000; for week ending Friday, 21,500 compared Friday last week: Bulk spring lambs and yearlings 15 to 25 cents lower quality considered, sheep weak to shade easier; week's top spring lambs 8.75 paid at close for both natives and westerns; late bulk choice 84 pound westerns 8.75, others earlier in week downward to 8.00, including both Idahos and Oregons at that price; few plain woolled California 7.00. Monday, shorn springers from same state, 6.75; desirable natives mostly 8.00@8.50, bulk on closing day 8.50 and above; medium throwouts 6.00@6.50; top yearlings 6.75, bulk 6.50@6.50; ewes 1.50@3.25, top 3.50.

Hogs—Receipts 4,000, including 3,500 direct; nominally steady; quotable top 9.75; shippers took none; estimated holdovers 1,000; 140 to 160 pounds 9.75@9.90; 160 to 200 pounds 9.00@9.75; 200 to 250 pounds, 9.35@9.75; 250 to 350 pounds 8.80@9.50; packing sows, 7.25@8.65; pigs, 8.00@9.25; all nominal.

LIVESTOCK ESTIMATES

Chicago, June 22.—(AP)—Unofficial estimated livestock receipts for Monday:

Hogs—15,000; cattle, 10,000; sheep 12,000; hogs for all next week, 72,000.

PLANS DISCUSSED FOR ORGANIZATION OF SAFETY COUNCIL

(Continued From Page 1)

tion, leaving nothing undone to prevent loss of life or accident, wherever possible.

From suggestions offered and discussion had at the meeting it was apparent that such an organization if formed along the lines suggested would soon become a vital factor in this community in accomplishing the purposes for which the council stands.

Publicity Campaign Planned

An extensive local campaign which will aid the public through educational facts and helpful suggestions to avoid accidents will be presented in a series of advertisements soon to appear in the local press, in the form of posters and various other ways, bringing to the attention of the public both motorists and pedestrians alike, the necessity for careful driving and watchful walking on city streets.

Further details and names of those assisting in the campaign along various lines will be made known at the regular meeting following a meeting to be called soon.

ELECTION OF OFFICERS FOR U. S. W. V. TAKES PLACE TODAY

Final Sessions Of Convention Will Be Held At Rockford; Parade Last Night

Rockford, Ill., June 22.—Election of officers by the United Spanish War Veterans and their auxiliary for Illinois and the selection of a convention city for 1936 were the principal items of business scheduled for today as the closing session of the three-day state convention started. Officers and delegates were nominated yesterday. Officers elected will be installed late today. Three cities are the leading bidders for next year's convention, Streator, Lincoln and Danville.

The annual military street parade held last night was one of the most impressive ever held in this area. The annual "crawl" of the Military Order of Serpents, fun-making organization of the veterans, took place last night. The principal speaker at the afternoon session yesterday was Guy E. Bonney, superintendent of the veterans' situation in the department of public welfare of the state. He disclosed a critical need for more beds in hospitals throughout the state stating that over 800 beds are needed immediately. Within the next ten years more than 3,000 additional beds will be necessary to care for disabled vets, according to the speaker.

Dr. Francis J. Thomas, Morris, was unopposed as candidate for the office of state commander.

DEADLINE IS JUNE 27

Washington, D. C., June 22.—(AP)—In the story on June 20 describing the home owners loan corporation situation in Illinois, it was erroneously stated that the deadline for receiving applications for further loans was July 27. This should have been June 27. The Associated Press regrets this error.

The population of the world is increasing at the rate of more than 12,000,000 annually.

"WHAT MAKES MILK WHITE?" CONTEST IS OPEN TO ALL

Closing Date July 6, National Dairy and Food Bureau Announces

Cash prizes totalling $25 are offered by the Freeport division of the national dairy and food bureau for the best answers, in one hundred words or less, to the question, "What makes milk white?" Men, women and children are eligible to compete for the prizes.

Because of the great interest aroused in the contest, the closing date has been postponed to July 6.

As a hint to those striving to find the correct answer to the question, the national dairy and food bureau suggests: "Ask your milkman, your doctor, your dentist; they may be able to tell you."

Answers are to be sent to What Makes Milk White contest, 315 Federal building, Freeport, Ill.

CORN SITUATION BECOMING UNCOMFORTABLE FOR BEARS

Prospect Is That Grain Will Be Scare for July Delivery

Chicago, June 22.—(AP)—Prospective acute scarcity of corn to meet July delivery contracts here is just now making the grain uncomfortable for a good many speculative traders.

One reason is that elevator interests have agreed not to mix Argentine corn with domestic corn available for Chicago delivery purposes. Furthermore, the Chicago stock of domestic corn is expected to show decided curtailment on Monday next owing to liberal shipments from here the past week, and the total visible supply in the United States is so small because of last year's drought, that there are only a few points from which corn can be obtained to bring to this market.

With additional tension resulting from unusual delays in planting the 1935 crop, the corn market this morning compared to a week ago was 1¼-2¾ cents a bushel higher. Simultaneously, wheat was 1¾-1¼ up, oats ½-¾ advanced, and provisions unchanged to 12 cents down.

KENNETH LAWYER OBTAINS DIPLOMA AS FLYER TODAY

Washington, June 22.—(AP)—Wings were to be pinned today on 69 students graduating from the advanced flying school at Kelly field, Texas. The graduation exercises will be featured by an aerial review participated in by all the graduates. The principal speaker will be Brig. Gen. Oscar Westover, assistant air corps chief.

The war department announced today the following Illinois flying cadets have been designated as airplane pilots and airplane observers:

Kenneth W. Lawyer, Freeport; Paul B. Williamson, Peoria; Earl E. Bates, Winnetka.

WILD BOAR HUNTING DANGEROUS SPORT

Hunting wild boars, a dangerous sport in any region, is a grim business to the ranchers of Neuquen territory in the Andean foothills, says the Montreal Herald. Wild boars by the hundreds are playing havoc with flocks of sheep and the ranchers have organized systematic hunts. Cornering the animals is a difficult business, however, because the wild pigs frequent the fastnesses of the foothills, not easy of access. Specially trained packs of hounds are used to trail the boars to bring them into the open to face the rifle fire of the massed ranchers. Added to the difficulties are the expenses of the hunt, estimates among the dogs run high. The area most affected is in the department of Los Lagos, the lake region on the Argentine side of the Andes, where great packs of hounds are constantly on patrol.

OPINIONS DIFFER AS TO VALUE OF MITCHELL STORY

ONE SENATOR TREATS IT WITH CONTEMPT AND ANOTHER WITH SOME RESPECT

Washington, June 22.—(AP)—Chairman Copeland (D., N. Y.) of the senate commerce committee which heard Ewing Y. Mitchell's charges against the commerce department declared today that the accusations were "thin air."

The New Yorker summed up his opinion of the charges of "graft" and "apparent corruption" with the expression:

"Phfft."

But from Senator Vandenberg (R., Mich.), also a member of the committee, came the comment that the several days of testimony had "placed the Leviathan transaction squarely in the lap of the president."

What Mitchell Charged

Mitchell, deposed assistant secretary of commerce, had said that the United States Lines had been relieved of $1,720,000 in penalties when it took up the liner Leviathan, and that the transaction had been motivated by President Roosevelt's friendship with Vincent Astor, Kermit Roosevelt and others interested in the shipping business.

Secretary Roper testified yesterday, denying the accusations and picturing his former assistant as an "exceedingly suspicious" and "overimaginative" person and a meddler who permitted his department affairs to get into a "log jam." Roper declared emphatically that "the president did not initiate my action in laying up the Leviathan."

Copeland said later that Mitchell's charges were "completely and efficiently answered."

Shipping Board Director's Version

J. C. Peacock, director of the shipping board bureau, insisted the government had actually "forgiven" only about $20,000 in penalties due for laying up the Leviathan. Vandenberg was not satisfied.

At his request Peacock's testimony was sent to Richard N. Elliott, assistant comptroller general, for review, since it was Elliott's estimate on which Mitchell claimed to have based his charge that the government actually had waived $1,720,000.

STATE CONCLUDES DIRECT EVIDENCE AGAINST A. V. GAGE

(Continued From Page 1)

4:10 and 4:16 o'clock March 19, 1935, and that Mr. Gage showed no evidence of being under the influence of liquor and he did not smell liquor on the defendant at that time. Similar testimony was offered by Albert N. Nelson, former Winnebago county treasurer and now deputy treasurer of that county.

According to L. Wallace, in charge of the printing department of the W. T. Rawleigh company, Mr. Gage was not under the influence of liquor when he left the Hi-Lo tavern a short time before the accident occurred. He said he observed the defendant at the north end of the bar and in back of the bar at the tavern. He denied telling the state's attorney that the defendant was running about in the tavern and was not wanted there during the party of the printing crafts which was in progress at the Hi-Lo tavern.

Explains Dented Radiator

The depression on the right front side of the radiator grill on the Gage car existed some time before March 19, 1935, according to Vernon Howe, 816 West Elk street. The witness said he observed this indenture some time before the date of the accident as the car was standing in the Gage driveway, at the rear of the Howe residence. The witness said he commented on this fact to his wife and after reading of the accident in the local newspaper discussed this with his wife and later told Mr. Gage he had seen the bent radiator grill some days before the mishap. By this method the defense is seeking to show that the indenture was not made on the night of the accident, through the car striking Miss Cleveland or in any other similar manner.

Testimony offered by the state yesterday included that of several officials among them being Coroner E. A. Diestelmeier, Deputy Sheriff Harry Yde, Chief of Police A. W. Wilkey, Patrolman Fred Mandtel and Patrolman Edward Brown. All stated the defendant appeared to be under the influence of liquor while at the police station following the accident. "Doctor, you know I wouldn't run away if I had an accident," the defendant is alleged to have said to the coroner at the station.

There will be a session of court this afternoon and an adjournment will then be taken until Monday morning at 9:30 o'clock. Henry Krieg and Mrs. Krieg, who observed a car traveling in a zig-zag manner down South Galena just prior to the accident and who saw this car swerve away from the scene, were also witnesses for the state.

R. W. HYATT IS SPEAKER AT MEETING, NORTHWESTERN PRESS ASS'N, AT THOMSON

F. A. Read, R. W. Hyatt and Roland Hyatt attended the meeting of the Northwestern Press association yesterday at Riverview park, Thomson, Ill. Mr. Hyatt was one of the speakers, his subject being "Retail Problems In Running a Fashion Store." Mr. Read was also called on and gave a brief informal talk. The meeting was attended by fifty men, managers of weekly papers.

Fresh catfish, just caught in the Mississippi river, was served, and, according to Mr. Hyatt, it was "a feast fit for a king."

OHIO, THE BUCKEYE STATE

The buckeye tree was very abundant in early Ohio, getting its name from the resemblance of its nut or fruit to the eye of a buck. At the first court conducted by the Ohio settlers at Marietta in 1788, the leader of the judges' parade was a very tall man, Colonel Sproat, who no impressed a group of Indians that they shouted "Hetuck," meaning "Big Buckeye."

Historians say the first European to visit North Carolina was John de Verazzano, a Frenchman, who claimed the land for France.

SUMMER'S FIRST DAY NOT CHEERY IN SOME AREAS

FLOODS AND VIOLENT WINDS CAUSE WIDESPREAD DESTRUCTION

(By the Associated Press)

Floods and near-tornado winds spread death and destruction through the mid-west today, the first official day of summer.

Texas and Arkansas were hardest hit.

A fourth victim was added to the death list in Arkansas after a tornado which swept the Texarkana region causing property damage of $150,000 in an area two by thirty miles. About 1500 head of livestock were reported drowned.

Four thousand more Arkansas acres were submerged when a crew of 100 abandoned efforts to save a levee on the Arkansas river shore.

Kentucky and Illinois, also heavy losers from spring floods, watched the first day of summer add to the havoc. Torrential rains swelled rivers, swept away bridges, and inundated farm lands in both states.

High winds added one death in North Dakota and lightning took a life in Missouri.

Throughout the rain and wind swept region low temperatures further retarded crops and farmers were hurriedly harvesting in wheat and oat regions between downpours to save part of their grain.

Boggy farmlands made use of machine harvesters virtually impossible and farmers were desperately resorting to antiquated hand-scythe methods.

POSTOFFICE VETERAN AUTOMOBILE PIONEER

Dewitt, Ia. (AP)—Another veteran, in his day a pioneer, has gone on the pension roles of the postoffice department.

He is Jay G. Sullivan, credited with being the first rural carrier to use an automobile on his route. Sullivan started carrying the mail Jan. 1, 1908, and figures he has traveled more than 250,000 miles.

He recalls that when he first started driving a car he had to get permission from headquarters at Washington.

ELKHORN MAN HELD IN DEATH OF FOE, 70

Elkhorn, Wis., June 22.—(AP)—Patsy Corbett, 68, is being held in jail on a manslaughter charge in connection with the death of Jack Thompson, 70, fatally beaten during a drunken dispute with Corbett. Thompson died Thursday without regaining consciousness.
